

# Swedish Basal Ganglia Society Webinar Series

CERNITA AGITUR

[Zoom Link](#)

## Swedish Basal Ganglia Society: Inauguration event Friday January 22, 2021 @ 1500 CET

We invite you to join the inauguration of the Swedish Basal Ganglia Society ([SWEBAGS](#)).

The inauguration event will feature lectures by two eminent basal ganglia researchers [Anders Björklund](#) and [Sten Grillner](#) who will talk about therapies for Parkinson's diseases and provide an evolutionary perspective on basal ganglia network and function. [More information.](#)

SWEBAGS is proud to induct Prof. Anders Björklund and Prof. Sten Grillner as its honorary members.

### ANDERS BJÖRKLUND

Stem cell therapy for  
Parkinson's disease: From cell  
replacement to circuitry repair

### STEN GRILLNER

With the basal ganglia over  
500 million years – function  
and intrinsic networks

Join us in honouring Prof. Björklund and Prof. Grillner and engage in discussion with them and other members of the SWEBAGS.

SWEBAGS Webinar series brings two lectures on last working Friday of every month. More info:
